# M-U-T-AUSTROCLEANER ROAD SWEEPER

UNIVERSAL. AGILE. ACCURATE.

The perfect choice for clean roads.

The **M-U-T-AUSTROCLEANER Road Sweeper** proves itself on its **high reliability** and **accuracy** in **cleaning of cities, areas, kerbs or construction sites**, at the same time.

The ergonomically and sturdy design in ideal combination with different types of equipment, make the **M-U-T-AUSTROCLEANER** to one of **the best and most efficient cleaning vehicles** on the global market.

## EFFICIENT

The innovative and compact design enables an **extremely fast** and **flexible use** of versatile features.

- **front brushes**, slewing and telescopic for an **enlarged sweeping width**
- **side brushes** with **3D-tilt adjustment**
- **high pressure washing-bar**, **fold-out** in front and (optional) **telescopic**
- **hand-suction unit**, especially for foliage and catch pits
- **additional water tank** - entirely made out of stainless steel - accurately adapted to the vehicle conditions
- **high pressure hose-reel** with spray lance

## ADAPTABLE

- body size **up to 12 m³** and more possible
- **stainless steel container** for refuse
- for **two- to three-axle chassis**
- **hydrostatic traction drive** (optional)
- sweeping operations possible **up to -7° C**
- **stainless steel water tank** with capacity from **1.700l to 5.000l**
- **fan power** up to **30.000 m³/h**
- **high pressure pump**, with adjustable data of performance, from **120 bar** to **400 bar** and more
- **double protected water pump**: against dry run as well as overheating
- integrated **aperture** for **bulky goods**
- integrated **foliage grids**
- **washing facility** for the container
- **rinsing facility** for the fan
- **sound insulation** for particularly **noise reduced operations**, e.g. in the inner city
- **Industry X.0-capable** - for an ideal digital integration into the fleet
- panels on the side can be used as a large advertising space
- minimum warranty of 2 years

## CLEAN

- **PM certified (★★★★)**
- **fine dust-free operations** caused by a **special air circulation system** for **minimum environmental impact** - especially for the use in inner cities
- **suction system** for a maximum effect
- **high efficient filter set**
- **High tightness** due to the design of the system
- **special nozzles for fine dust** moisten the filthy particles for an ideal deposition in the collection container - without any dust loading outdoor (optional)

## HIGH PRESSURE

The new **M-U-T ROTO-JET-UNIT** (optional) ensures perfect performance under the most difficult conditions:

- high pressure up to **400 bar**
- **water-capacity** up to **7 m³** and more (vehicle dependent)
- up to **30.000 m³/h fan power**
- **double-sided shifting** up to **400 mm**

## EXPANDABLE

### M-U-T Visibility and Safety Packages

- **camerasystem**, up to **360°** all-round visibility
- **LED-all-round light**
- numerous other options available

### M-U-T EASY-WORK-Packages

- **sweeping power unit** on both sides
- **high pressure washing-bar** with rotating brush
- **front disc brooms**
- **rear-suction system** across the entire width of the vehicle
- **telescopic high pressure washing-bar** in front
- **enlarged suction nozzles** (construction sites)
- **rotary-jet system** at the rear part
- **front feed brooms** beneath the bumper

### M-U-T Service Packages

- **warranty extension** up to 60 months
- **care of vehicle fleet**, incl. annual check
- **servicepackage „M-U-T All In“**

### M-U-T Multifunctional-Touch Display

- **central control** over superstructure
- **simple operation** of all work steps
- **individually configurable**: e.g. in order to allow a smooth change of drivers within the association

## ELECTRICAL

With **M-U-T ELECTRIC** (optional) into an emission-free future: M-U-T- vehicles, which are designed **solely electrical**, guarantee a much **higher economic efficiency** and **longer service life**, in comparison to the conventional drive concept.

## SAFE

- **automatic locking** of the lid
- **increased operational safety**, power efficiency and smoothness due to latest electronics

# M-U-T EXPERIENCES FOR 90 YEARS

## Thoughtful M-U-T-Design

Even axle load distribution during different loading conditions, concerted components and variable configurability at the same time make the M-U-T-AUSTROCLEANER to the most flexible road sweeper on the market. High system tightness due to the special design.

## Labour Protection and Safety

Automatic locking of the rear part, good overview of the vehicle as well as optimum lighting in the working area. Ergonomic design and low noise operations due to optimized system design.

## Economic Efficiency and high Availability

High flexibility caused by low tare weight, low-maintenance and long lasting structure: low wear and tear because of the usage of stainless steel particles and just few moving parts. Increased driving speed possible due to concerted components.

## Convenience

Simple handling via the adaptable **M-U-T-Multifunctional-Touch Display**.  
**Industry X.0-capable** - for an ideal digital integration into the fleet.

## Variety of Models and Modularity

Different sizes of construction available, with adjustable data of performance - for different types of operations and customer requests. The wide range of additional equipment in the scope of safety, environmental protection and convenience as well as diverse attachments, allows an individual adjustment of the M-U-T-AUSTROCLEANER to the required claims and tasks.
