

since 1932

REAR LOADER VEHICLE ROTO-M-U-T-MINI

SMALL. SLIM. POWERFUL.

The perfect companion to collect waste, when it gets narrow.

The **ROTO-M-U-T-MINI** convinces with its **compact design** in combination with the principle of the **rotary drum** - particularly suitable for the collection of waste and moist rubbish in narrow alleys, small access roads, city centers and parks - wherever vehicles in „common“ sizes are not able to reach.

The perfect combination of different types of equipment makes the **ROTO-M-U-T-MINI** to one of the **most economical collection vehicles** on the global market.

Especially when it gets narrow.

COMPACT

The construction, specially developed by M-U-T, **shortens the rear overhang** and **optimizes the axle load ratio** of the vehicle this way.

- extremely high maneuverability
- preserving the chassis
- optimum payload - more waste, less consumption
- low maintenance costs
- weighing-system for waste bins (optional)

ELECTRICAL

With **M-U-T ELECTRIC** (optional) into an emission-free future: M-U-T- vehicles, which are designed **solely electrical**, guarantee a much **higher economic efficiency** and **longer service life**, in comparison to the conventional drive concept.

ADAPTABLE

- body size from **4.2 up to 6.0 m³**
- **slim version**, up to the width of a passenger car
- **high compression** of waste - up to 1:5 possible for organic waste
- **stainless steel version** of the rotary drum system for a **longer service life**, in particular for organic waste as well as other types of moist waste
- **Industry X.0-capable** - digital integration into the fleet
- **maintenance-free cardan shaft**
- noise reduced soundproofing of the rotary drum
- minimum warranty of 2 years
- perfect inner city collecting-all-rounder, especially for narrow passages, as well as for commercial and industrial areas

STYLING DESIGN

- additional noise reducing version
- can be used as generous advertising space
- powder coated cladding (optional)

NAKED DESIGN

- exposed rotary drum
- touch protection made of aluminum sheets, optional powder-coated
- can be used as advertising space

EXPANDABLE

M-U-T Visibility and Safety Packages

- camerasystem, up to 360° all-round visibility
- LED-all-round light
- numerous other options available

M-U-T EASY-WORK-Packages

- container for special tools
- overall structure-weighing system
- numerous other options available

M-U-T Service Packages

- warranty extension up to 60 months
- care of vehicle fleet, incl. annual check
- servicepackage „M-U-T All In“

M-U-T Multifunctional-Touch Display

- central control over ROTO-M-U-T-MINI
- simple operation of all work steps
- individually configurable: e.g. in order to allow a smooth change of drivers within the fleet

M-U-T EXPERIENCES FOR 90 YEARS

Thoughtful M-U-T-Design

The **compact construction** - up to the width of passenger cars - enables the accessibility within narrow areas or passages, for example city centers. Even axle load distribution during different loading conditions. High system tightness due to the special design.

Labour Protection and Safety

Automatic lock of the rear part, weight-monitored running boards, optimum lighting in the working area, ergonomic design. Soundproof rotary drum in order to allow a low noise operation.

Economic Efficiency and high Availability

High load capacity caused by low tare weight, low-maintenance structure and long-lasting components: low wear and tear due to usage of stainless steel particles and few moving parts.

Convenience

Simple handling via the adaptable **M-U-T-Multifunctional-Touch Display**.
Industry X.0-capable - for an ideal digital integration into the fleet.

Variety of Models and Modularity

Different heights, widths and lengths of the construction available, for different types of operations and customer requests. The wide range of additional equipment in the scope of safety, environmental protection and convenience as well as diverse attachments, allows an individual adjustment of the waste collection vehicle to the required claims and tasks.
